

## A REVOLUTION IN THE SUPPLY OF FABRIC TO THE DIGITAL PRINTING INDUSTRY

With headquarters in England, we are centrally placed in the worlds first industrial city and historic home of English fabric manufacture and innovation. Our ongoing growth and success has allowed us to become one of the largest suppliers in our industry with over 100,000sq/ft. of modern storage across the region. This vast capacity combined with our unparalleled fast turnaround allows us to stock around 4 million metres of fabric that can be delivered daily to our customers as and when required.

- Largest stock holding in Europe - over 400 variants and 4,000,000 square meters in stock
- Over 120 fabrics, ALL PFP and ready for digital reactive, digital pigment and sublimation printing
- Home decor, fashion, display, furniture, bedding and kitchen textiles

- All fabrics available are PFP (prepared for digital print) and we have a large range of pre-coated bases available
- and... we pre-coat any fabric (min. 200 linear meters)
